The Heroic Love Stories Of Marriage Equality

2024 Cross-Promotional Media
Marketing Proposal with

GoodDoxie.com

The JustMarried Project

JustMarried weaves together the love stories capturing the compassion and consciousness of our nation-winning marriage equality and those preserving it now.

A moving, and at times, heart-breaking look at the extraordinarily brave, across 7 decades through today, who came out and opened their private lives—to the scrutiny of a nation—in order to convince politicians, preachers and the public of their right to history's most cherished institution—marriage.

A Human Right We Must Protect

JustMarried includes a diverse storyline featuring **LGBTQ+** families, advocates, and allies inhabiting a wide variety of age, race, religion, gender identity, political and social economic backgrounds

Only true stories,
like those documented in **JustMarried,**
from the famous
to the reluctantly famous,
have the kind of storytelling power—
to reduce attacks on our community,
fostering a the culture of equality for all,
a mission for EqualPride

“Projects like JustMarried are so important. These are **vital stories, they are emotional and nurturing.** They are **essential for us to move forward in life** with an understanding of what people have gone through. And we really need to capture those so we can **keep our history alive and share it with future generations.**”

~Jim Obergefell

The HEROIC LOVE STORIES
of
MARRIAGE EQUALITY

justmarried

Each of JustMarried’s personal narratives embodies the long fight for societal inclusion and its companion: dignity.

These stories are about love and courage– at a time when we may need them most.

It is a historical collection that resonates, educates and inspires future generations to understand why people fought for our rights– and how easily those rights can be lost.

We believe the best way to fight is to remain defiantly visible and with our stories, gently reach the hearts of everyday Americans.

The JustMarried Project
