

## PRODUCER OUTREACH- EMAIL / CONTACT FORMS

**SUBJECT:** The JustMarried Project

Hello Jamie Lee Curtis!

We'd like to discuss with you potential involvement in JustMarried, a Docuseries weaving together the heroic love stories of Marriage Equality. We know what a fierce advocate you are for our community and would be grateful to have a moment to discuss this project.

Brave couples came out, told their stories and captured the compassion and consciousness of our nation. They opened their private lives, to the scrutiny of politicians, preachers and the public to win this historic civil right. Some well known—many not—but there's a vital need to know them now.

From the 1950s through today, these couples inhabit a variety of age, race, religion, gender identity, political and social economic backgrounds. Jim Obergefell, whose court case won this precious liberty, is a Producer for this Docuseries as well, which will be supported by a serialized podcast and coffee table book, both encompassing additional narratives. John Casey, Sr. Editor at The Advocate will be doing some of our high-profile interviews.

The link below has a our Series Document and promo reel. If you would like a printed Series Document please let us know to what address to deliver.

The creator of the project, Frankie Frankeny, would be over the moon to pitch this project via Zoom.

Thank you very much in advance for your consideration of this important historic project!
